

Instructions for Using the Hands-On Lab

1. Select the **Hands-On Lab** tab.
2. The first time you access a course containing the SAS Hands-On Lab for Terminal Servers, you must read the documentation. Select the **Documentation** icon to open the documentation in a new browser tab. Many commonly asked questions are addressed here, so please read the documentation thoroughly.
3. Select the checkbox certifying that you have read the documentation, and then select **Submit**.
4. In the Hands-On Lab Reservation System, select the reservation duration and start time, then click Make Reservation. Note that it takes 60-75 minutes for the virtual lab to start.
5. To launch the lab, click **Launch**.
6. Open Google Chrome. On the Bookmarks bar, select **SAS Studio**.
7. In the SAS Studio login window enter your credentials and sign into SAS Viya.
 - a. **User ID: student**
 - b. **Password: Metadata0**
 - c. Select **Sign In**
 - d. Click **Yes** when prompted to opt in to all of your assumable groups.
8. On the left side of SAS Studio, in the navigation pane, click the **Explorer** icon  to access the Explorer.
9. Expand **Files > Home > quick-start**. The **quick-start** folder contains all the files that you need to follow along with the demonstrations.
10. Double-click **_Load_Quick_Start_Data.sas** to open the program. Do not make any changes to the code. Click **Run**. Confirm a report is generated listing the **HOME_EQUITY** and **CUSTOMER** tables.
